Studentforsikring

Valid from 1 January 2016 • DKK

Willis

Bupa 

Bupa Global Travel together with Willis offers a particularly advantageous travel insurance plan for students who are studying or doing an internship abroad.

Why take out Studenterforsikring?

Studenterforsikring is an insurance covering you in case of illness and injury — or if you are held liable for damage during your stay.

Studenterforsikring will cover you if in need, and the insurance gives you many benefits — see the list on page 8.

Advantages

As a student in a foreign country in the EU you must often subscribe to the Public Health cover in your host country — with a Studenterforsikring this is no longer necessary.

www.studenterforsikring.dk gives you access to your insurance so that your policy documents are available at all times — also while abroad. You can find the terms and conditions and information on how to report a claim.

You will also gain access to our 24-hour emergency service where you can get assistance and guidance, if you need help.

Covers

The insurance consists of a Basic Cover, which can be extended to also cover your brought household contents and baggage and/or cover death and disability as a consequence of an accident.

Who can take out Studenterforsikring?

All students enrolled at a Danish/Swedish/Norwegian educational institution who are going abroad for an internship or to study. The insurance also covers if you combine your stay with holidays.

Insurance period

The insurance can be issued for a period from one month up to two years.

How to take out Studenterforsikring

Your Studenterforsikring is issued online on www.studenterforsikring.dk. Your insurance policy and conditions will be sent to your email immediately.

Who can take out Studentersikring?

All students covered by the national health law "Sundhedsloven" in Denmark or similar health laws in Sweden or Norway and who are enrolled at a Danish/Swedish/Norwegian educational institution and going abroad for an internship or to study.

For how long can I be covered by Studentersikring?

The insurance can be issued for a period from one month up to two years.

Am I covered if I go on holidays during my stay abroad?

Yes, the insurance also covers if you combine your stay with holidays. However, your holidays may not exceed the length of your study period.

Will I be covered for pre-existing conditions on the Studentersikring?

On standard terms the insurance only covers acute illness. You will therefore have to apply for cover of pre-existing conditions, if you have a permanent condition; have been examined by a doctor and/or have been admitted to the hospital within six months prior to your planned departure.

My university abroad has many demands to my cover — does Studentersikring fulfil these?

Please send the university's demands or waiver to rejse@ihi-bupa.com in order for us to review the demands and determine whether Studentersikring complies with these.

How do I take out Studentersikring?

Studentersikring is easy to take out online. Afterwards you have direct access to your policy documents and your conditions — and you also have the possibility to extend your insurance.

I am covered by another insurance for the first part of my stay — can I take out Studentersikring to cover the remaining part?

Yes you can. You just take out a Studentersikring on www.studentersikring.dk starting on the date when your other cover stops.

Please be aware that if the insurance has been paid after your departure a three-day waiting period is applied.
